RUSSIAN FLEET BACK AT PORT ARTHUR.

Was Maneuvering Against Sixty Jap Vessels Off Wei Hai Wei.

Czar's Reply is Variously Reported as Having Been Sent to Alexieff for His Approval and as Having Gone to Tokio-War or Peace Expected Today by Diplomats-Lloyd's Rates Go Up.

[BY THE ASSOCIATED PRESS-P.M.]

DORT ARTHUR, Feb. 4.—[By Asiatic Cable.] The Russian fleet returned here at 4 o'clock this afternoon. The fleet under Admiral Stark put to sea at dawn February 3. It has taken up its anchorage outside the harbor. It was maneuvering, it is reported, against sixty Japanese warships off Wei Hai Wei. The quarantine against Che Foo has been annulled.

REPLY SENT TO ALEXIEFF.

ST. PETERSBURG, Jan. 4.—The Russian reply to Japan was forwarded to Viceroy Alexieff. If he approves it, it will finally reach the Tokio government Monday.

WAR OR PEACE TODAY.

WASHINGTON, Feb. 4-War or peace will come with tomorrow. This is the general opinion in the Diplomatic the government, alone or in conjunction with the United States govern Corps. Both at the Russian embassy and at the Japanese legation, the situation in the Far East is described as grave.

It is stated at the Russian embassy that the St. Petersburg government has made a determined and earnest effort for peace, even going so far as to offer magnanimous tions b concessions in Korea. The question of Manchuria, Russia would be manifestly improper to make any observations on the situation. The is willing to discuss, taking the ground that this is a British government, he added, had subject for negotiations between St. Petersburg and sia in regard to the delay in the evac Peking, and not between St. Petersburg and Tokio. In the opinion of the Russian government, that the Russians had removed several Japan's legitimate interests in Manchuria do not exceed those of the United States and Great Britain, or Posts in China, from the native cus of the other powers signatory to the peace protocol of 1900. For this reason, Russia has declared her unwillingness to Representations, the Earl added, had discriminate between the powers and enter into a special tersburg treaty with Japan.

In the event of war, it may be expected that the Russian government will address the powers, setting forth her position and briefly reviewing the various steps in the negotiations. It is expected by Russia that a war manifesto will be immediately followed here by an official declaration of neutrality on the part of the United States.

RUSSIANS LAND FORCES.

companies of Russian soldiers have left Port Arthur for Yongampho and are moving toward the Yalu River. The commander of the Russian forces at Vladivostok has requested the Jap-

anese there to leave. Russia is sending troops to Seoul at he request of the Korean government, the correspondent continues, and will explain this action probably by affirming that there are 3000 Japanese coldiers at Seoul in disguise. The cordent, however, says this assertion cannot be confirmed. It is rumored, he concludes, that several thousand Russian soldiers will reach Korea Friday, unless they are stopped

LONDON, Feb. 5.—The English correspondents in St. Petersburg refer to an exceptional honor which has been accorded the American press. Petersburg, who considers war inevi table, declares that the Czar's tion has been overcome, and that Rus sia will make no concession. He says: "Up to the present time, not a line of information or apparently a word of inspiration has been given the Russian press on these serious negotiations, although the American press has honored by the granting of an audience by the Czar to the represe of a trans-Atlantic news agency."

GLOOMY ADVICES. WAR NEWS AT WASHINGTON.

WASHINGTON, Feb. 4.—The State Department received gloomy advices from various points today touching the Russo-Japanese situation. One of the most significant confirms the press dispatch from Tokio respecting the notification of Japanese at Vladimeasure which is rarely resorted to except in cases where war is regarded as an absolute certainty. It is said that, in anticipation of

hostilities, the Japanese governmen has for months maintained a secret rvice system throughout Manchu and that Japanese spies are now in churia from their base in case of war on the Manchurian railway.

sloner Yerkes of the Internal Revenus Bureau, when shown the dispatch from Kansas City stating that a large number of express agents in Kansas and in the prohibition counties of Texas would be arrested for shipping liquor in to the prohibition States, said that his office had not yet been informed as to actions brought against express agents, either in Kansas or Texas, and that if arrests had been made or prosecutions begun it was probably due to the fact that the local internal-revenue officials had learned that express agents and others were having goods chipped to them by wholesale liquor dealers and they were selling and delivering them to parties without having taken out the special tax stamp required by the 'internal-revenue laws. No sale of liquor can be made legally by a person who has not paid the government such tax: and if these agents have sold packages of spirits to parties in their respective places of business before taking out a special stamp they are liable to prosecution. That the sale was made in a prohibition State has no direct bearing on the question, because the same law applies in all localities. (BY THE ASSOCIATED PRISS.—P.M.)

OAKLAND, Feb. 4.—The California Yacht Club today scored in its crusade against the contamination of Oakland Harbor by the dumping of refuse crude oil into the v. ters of the bay by crews of the oil-tank steamers that find dockings at Alameda Point.

After four months of battle, the club this afternoon secured the conviction of F. C. Dellegar, first officer of the steamer Rosecrans, an oil-tank vessel. The charge was a violation of the statute of California, which prohibits the emptying of crude oil into the water of the bay, or of streams.

The case was hard fought, but after two days in actual trial, Justice of the Peace James G. Quinn, found Dellegar guilty and ordered him to appear Saturday for sentence. The maximum fine under the law is \$1000. CLUP SECURES CONVICTION.

SENATOR HANNA'S ILLNESS.

MAY DEVELOP PNUEMONIA. Dispatch.] Apprehension over the condition of Senator Hanna has diminished since last night, although there has been no special development in his illness after midnight last night. It was learned today that he developedsymptoms that necessitated calling his physicians, although they had left him only about three hours before. During the entire time he was kept under the influence of opiates in the hope that he would be benefited even by the artificial rest produced by them.

Tonight, his physicians announced that they had completed a blood test

for malaria, and find that he is not suffering from that ailment. They have not completed the blood test for typhoid fever, and will not be through with that test before tor fluctuated up and down, which is one the possibility that he may develop the minds of his physicians.

Typhoid fever in his present weakened condition would be about as bad not generally known, but Senator since about the first of December. he was taken sick with a bad attack of grippe in New York. This lapses that he has had from that on been gradually wearing away.

of Abruzzi to this city on the Italian cruiser Liguria have been marred, says a dispaich to the Herald from Buenos Ayrēs, by an incident which occurred at a regatta between small boats of the Argentine and Italian vesels, at a fashionable resort near Buenos Ayrēs.

In the presence of President Roca, the Duke, members of the Cabinet and a large crowd, the crew of the Argentine boat won a race from the Italian cruiser's boat. On returning, Capt. Biscueretti de Buffia, second officer of the Liguria, declared that there had been foul play. Capt. Muscari of the Argentine navy, emphatically denied this and finally delegated two Argentine officers to ask satisfaction from Capt. de Buffia. The regatta committee disposed of the matter by deciding to repeat the race, with the Argentine boat manned by the Italian crew and the Italian boat carrying the Argentine crew.

from Tahiti, where he spent his mid-winter vacation. He is hurrying back to Chicago to arrange his private affairs and prepare himself for an expected call to Japan to assume charge of the surgical department of the Japanese army. In speaking of the matter the doctor said:

"If my services are needed I will quickly respond, and will probably take a corps of surgeons with me. It must not be understood, however, that must not be understood, however, that Japan is wanting in the way of surgeons. On the contrary, she has a large and most proficient corps; men who studied abroad and graduated with high distinction. The Red Cross Society of Japan, of which I have the honor to be a member, is composed of 8000 members, and is the strongest organization of its kind in the world. RUSSIA'S THOUGHT OF JAPAN

Atlantic Cable.] The feeling in the higher circles continues to be that Russia has offered substantial conces-Russia has offered substantial concessions, but that she cannot meet Japan's wishes regarding Manchuria, or agree to Japanese fortifications in Southern Korea. It is intimated in certain unofficial quarters that if Japan should offer a counter proposal that Russia guarantee China's Manchurian treaties, irrespective of the ultimate sovereignty of the province, there might be a chance of reaching such a compromise. It is argued that this setise. It is argued that this set lement would safeguard existing com Manchuria, and it is contended that if Japan demanded more in the last re-sort, this would betray to the world her ulterior ambitions on the continent of Asia, which would be inimi sia, but of the very powers which

Much anxiety and debate prevail here with regard to the future, but one thing is certain, Russia will not tile action if the negotiations break down. Russia will remain quiescent until attacked.

The Novoe Vremya today publishes long editorial article on its Port Arthur correspondence of yesterday. The views of this correspondent may appear fantastic, the paper says, but nevertheless America is the real foe eened behind Japan. The British, the act of betraying Europe by truck ling to the United States, and speeches at the recent banquet of the Pilgrims Society are cited as examples British servility. In conclusion, the Novoe Vremya says: "When Great Britain has quite gone over to the United States, the rest of Europe will realize the urgency of united action against America."

A telegram received here from Port Arthur says there is no annous there of the mobilization and the calling out of the reserves, but that ev-NEW YORK, Feb. 4.—Festivities erything is in readiness, and that the erything is in readiness, and that there which marked the visit of the Duke Manchuria. DOOT'S DEFENSE OF ROOSEVELT. Ex-Secretary Root's defense of the sident at the Union League Club banquet in New York was a manly episode as well, inasmuch as it oc curred in what may be termed the art of the enemy's country, if it can truthfully be said that there is any enemy's country as regards the Chief strated that there is opposition to Ro. sevelt anywhere in the Republi attention, unless it be in his ow clear that the speech of Mr. Root will help to clear the atmosphere at Gotham and vicinity if it be a fact that there are clouds there lowering over the President's prospects for support where he has a right to ex-pect it without the asking. For there is no doubt whatever that Mr. Roose velt is the one strong, wise, conservative force in this country today for the preservation of peace, industrial and international, for the protection of property, and for the protection of the rights of all citizens of the republic without regard to class or affilia-tions. The number of characters in this play of "Richard Carvel" is large—so large that the members of the company are obliged to do a lot of "doubling"—which they do without any too much cleverness. Andrew Robson in the role of Richard Carvel is, or course, the center of attraction. He plays the part with much earnestness. He is, in fact, convincing—or as nearly so as could be expected when we take into consideration the numerous strained and unnatural situations in strained and unnatural situations in which he is obliged to take the lead-ing part. Most ambitious of all the selection

Most ambitious of all the selections presented, was the first act of Gounod's "Faust," given by John Haae-Zinck, tenor, and F. Wailer Saeger, baritone. Neither Saeger nor Zinck has a voice suited to these parts, but they had a good idea of their situations, and were effective in dramatic delivery. The planist behind the scenes set too fast a tempo in some places—in others, not fast enough. The pure lyric beauty has never been properly combined with the dramatic force of this act, except by singers whose training has been in the Italian school. Zinck's Teutonic conceptions make him destroy his beautiful legato phrases in violent declamation—a thing which is sacrilege with Gounod. Mr. Saeger's voice was not equal to the demands of the Mephistophelian music last night, but his acting was in the traditional style of the tophelian music last night, but his acting was in the traditional style of the

THE TIMES-MIRROR COMPANY, GENERAL MANAGER'S OFFICE, LOS ANGELES, Feb. 4, 1901

ADVERTISING IN THE TIMES—COMPARA-TIVE STATEMENTS FOR JANUARY, 1903, AND JANUARY, 1904.

In response to inquiries from business men, I now make the following authoritative statements, showing the respective amounts of paid advertising matter of all kinds printed in the Los Angeles Times for the months of January, 1903, and January, 1904, respectively. The revised figures have been made up from the files and other records of the office, after two careful measurements, and may be relied upon verification by any patron who may apply at the office for that

purpose.

The record shows the following totals: For the month of January, 1904, The Times printed a total of 64,147 inches of paid advertising matter, as against 63,884 inches in the same month of the preceding year, showing a gain of 263 inches in that single month.

The volume of classified advertising (that is to say, "Wants" and other "Liners") taken separately for the months named, shows that there was printed in January, 1904, an aggregate of 22,761 inches, as against 18,659 inches for the same month in 1903, showing a gain of 4102 inches, or over 195 columns. This class of advertising, when added to all other classes printed during the month of January, 1904, made up the total of 64,147 inches above stated, being an aggregate of something over 3000 columns in

Both the other morning newspapers of Los Angeles, as shown by measurements made, printed an aggregate of 59,392 inches in January, 1904 - one of them printing 30,832 inches and the other 28,510 inches. A comparison with the figures given by The Times for itself shows that this paper printed about ten per cent more advertising in the month named than did the other two Los Angeles morning newspapers combined.

The two evening newspapers combined printed an aggregate of 35,530 inches only for the entire month—one of them printing 19,234 inches and the other 16,296 inches:

In order to make my statement still more complete as respects The Times advertising, I give the total figures for each of the years 1902 and 1903, respectively. They are as follows: For 1903, 35,096 columns; for 1902, 30,172 columns; gain, 4924 columns.

I go still further and give the average circulation for each of the two years last named, which was as follows: For 1903, 36,648 copies; for 1902, 31,240 copies; gain, 5408 copies. The results here shown as to

the January advertising, large as they are, would, I feel confident, have been still larger had it not been for the exceptionally dry season which is now unfortunately on in our part of the State, but which, we all trust, will disappear with the coming of expected copious rains. I welcome the inquiries which

have been made of me in these respects, and am glad to furnish the desired information, which is taken from our carefully-kept records, and may be depended upon as accurate and reliable. Signed H. G. OTIS.

EL HUTCH'S EXCUSE FOR DE IN CRIB CASE.

Ballerino's Lawyer Says Three the Jurers Voted Against the fense Because They Wanted Mo and None Was Offered Them.

Attorneys E. L. Hutchison and ace Bell and their clients, Bartolo lerino and Joseph Wiot, held a cil of war yesterday to decide the steps to be taken for the age the crib case from the verdict jury given Wednesday in Justice tin's court. It was decided to appea case on the record, as well as on ground of misconduct by member the jury. Lawyer Hutchison Hutch') said yesterday:

"There were at least half a demembers of that jury who was money to induce them to hold ou our favor. We will, at the proper the affidavits to the effect that to fithe jurors solicited bribes.

"One of them approached me, manding to know what the jury going to get out of the trial. We out to have something for our time, said, 'and I would like to know who going to put up the money.

"If that was not a hint for coin, would you call it? Of course, he diget any encouragement from me, clared the virtuous counsellor for defendants in the crib cases.

Mr. Hutchison stated that one of jurors approached Joe Wiot in a silar manner, and a third had the dacity to say that if a plece of mowere dropped in his pocket when wasn't looking he could be depen upon to hang the jury.

"El Hutch' contends that if his ents had complied with these hint grease the itching palma, the would never have returned an un mous verdict of guilty.

Hutchison would not name for plication at this time the three ju who, he alleges, solicited bribes.

"When we file our—affidavits." said, "the public will know whe culprits are. For the present I do care to name them."

Ballerine and Wiot are to appear sentence this morning at 2:20 o'ce when a motion for a new trial will made. When this is denied, as it veritably will be, sentence will be nounced, and then notice of appeal be given.

nounced, and then notice of appeal be given.

"El Hutch" could not say definit yesterday, whether the affida charging soliciting of bribes will filed this morning, or whether statutery ten days will be taken which to complete the statement on peal. It is hardly probable that affidavits will be forthcoming im diately, if at all.

Around the Police Station there feeling that El Señor Hutchison, prides himself on his almost unbrorecord of successfully defending clients in cases of this kind, is a ply trying to hide his chagrin and himself down easy, in his present feat, by raising a hue and cry at bribery.

HOLLYWOOD.

BEAUTIFUL TROPICAL
HOLLYWOOD.

Do you ask where is Hollywood? Lying at the foot of the Cahuenga hills, at the northwest gate to Los Angeles. It certainly is the most ideal spot on earth for suburban homes.

What is Holly wanything that can be grown in a semi-tropical climate.

How about the water supply? It is ample; of the pureat crystal water to be found anywhere; piped to your door, and at a rate as low as the lowest. In a few more weeks the orange groves will be laden with their sweet blossoms, and the air redolent with their perfume. Who can go to Hollywood and not be more then pleased with all her sweet blossoms, and the air redolent with their perfume. Who can go to Hollywood and not be more then pleased with all her says. The drive to Hollywood is a favorite one. She has miles of beautiful shaded streets, and hard graveled roads, free from dust and ruts. In the past few years there have been exceted nusmerous business bouses, and many palatial homes. Hollywood is on the right road. The work for the people will have a voice in regulating her affeirs. Nothing will be left undons by the heard that will further the advancement of their fast growing town.

FUTURITY NOMINATORS.
HAGGIN LEADS THE LIST.
[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, Feb. 4.—[Exclusive Distick.] James R. Haggin leads the list
nominators by the Futurity of 1906,
offering the wradue of 25, marse.

FRIDAY, FEBRUARY 5, 1904. has spent considerable time in teaching them to get away from the line when the pistol is dred, and Assistant Trainer Covington has proved of great value to the athletes in many ways. They certainly cannot have the excuse of improper training if they are defeated in the track meets. Another valuable man has been found in Coughran, Stanford's crack sprinter, who has been staying at U.S.C. the past week. It goes without saying that Filck, Parsons and the other short-distance men have learned many valuable pointers from him.

Cutter promises some surprises in the hurdles and the broad jump. U.S.C. has gone down to defeat in the hurdles in previous seasons and hardly expected to do much in the broad jump this year until Cutter got down to work with the college boys.

Ray Woodward, who holds the intercollegiate record in the 100 and 220-yard dashes, is sick and cannot compete, and this is a source of great diappointment to the Methodist boys. Bickford in the weight events has mastered the double turn in the hammer throw and is very much pleased with his success in this. Runyon and Miller are also doing good work with the weights. In the high jump De Mont Miller is doing 5.5 in practice, but as this is his first season he may be attacked by stage fright in a meet with another college.

The contest between Occidental and U.S.C., which will occur on March 22, promises to be very close, as with Woodward out of the way the colleges will have an even break.

The contest between Occidental and U.S.C., which will occur on March 22, promises to be very close, as with Woodward out of the way the colleges will have an even break.

Occidental in her contest with St. Vincent College has agreed to count only first and second places, first place 5 points and second 2. This will even up matters considerably. St. Vincent has consented to dismiss Seymour. He has been doing 10 1-5 seconds in the 100-yard dash and the Catholic college management is disgusted because the other colleges have forced them to drop him from their list in order that they might contest in a Southern California intercollegiate track meet.

If Pomona should win from Occidental on March 12 Manager Scott says it will be up to Pomona to meet U.S.C. in order to claim the championship of Southern California. It is to be hoped, now that a settlement has been arranged with St. Vincent College, that in the interest of good sport to terms.

The other ladies" let the scrappers fight several "ladies" let the scrappers fight several minutes, and when both were on the verge of hysterics, they were separated. Down in the ring the sports had a lively time, too, but their troubles extended over the entire afternoon, and consisted in trying to pick the best out of fields that no one could pick. Form players had a hard day of it, for the track was slow and cuppy, and some of the supposedly best horses couldn't run fast enough to get up a sweat. A barrel or more of wise money was dumped on the various events, for only one favorite won, and at 4 to 5 he finished as far in front as would throw a rock.

WISE MONEY SPILLS.

WISE MONEY SPILLS. WISE MONEY SPILLS.

The race where the wise money went to the bad was the last, where the light-weighted Ocyrohe, with a feather light-weighted Ocyrohe, with a feather on his back beat such good ones as Dolly Hayman, Redan and Nitrate. On Redan's run several days ago the dope fineds saw nothing but Redan, and Corrigan thought so much of his own horse that he bet \$1000 on him at 7 to 5, and others got down good and hard. No one wanted Ocyrohe but the pikers, because he had won two races, and he went back from 5 to 6 in the betting. Many steered clear of this one, because Booker was on him, this fellow having ridden too many "funny" races to ever become a popular idol. As it turned out Dolly Hayman might have won easily had not J. Lewis waited until the stretch before making his run. Dolly certainly mowed them down when she was sent on, but could not catch the winner. Redan is said to have had bad bellows, and this may

STEMWINDER WOUND 'EM.

The only purse race of the day went to Stemwinder, and he won from Americano. The distance was six furlongs, and the others entered were Americano and The Fog. These merely ran for exercise, for they were never in the race. Stemwinder opened up a heartbreaking gap of four lengths just after the start, and made it almost that far from beginning to end. Americano was just about as far in front of The Fog, and thus they finished, strung out like the floats in the floral parade.

and thus they finished, strung out like the floats in the floral parade.

CRAZY HORSE WINS.

The first event went to that wild, crazy fence jumper, Flourish, at 5 and 10 to 1. His owner had tied a stick on the side of his face so that he could not jump the fence, and with this preventative he ran second to Pat Hammon for half the distance. Then the favorite, Laccoon, whom Booker managed to get into eighth place at the quarter, did work through the field at the last turn, and finished second, where he has landed several times on the favorites. Dr. Bernays got the peep from last position at the start.

The third race went to another overlooked one in Ben Haywood at 4 to 1, third place being the best that the favorite, Fox Lake, could get. Huapala should have won, but met with plenty of interference. Strife had a great burst of speed from the half to the stretch, but stopped to a walk and ended in last place.

Under vigorous riding by Donovan El Fonse annexed the fourth from Iras and Mainspring, the latter closing favorite at post time. Lemco had a lot of money on him, but had no chance with the start, and Redfern didn't hurthimself trying to ride the beast, either. It was a big field to take a chance on, and any one was lucky to win.

CHUB COMES TO LIFE.

The fifth went to Chub, who suddenly came to life again, and beat the head off Fortunatus, after running fourth to him last Saturday. Of course E. Fortunatus set the pace, closely pursued by Chub; and when it came to the stretch run, Lewis sent Chub on and

HIGH GRADE SHOOT. Will Run Several Hundred Dollars Gold to the Ton—Gold Roads Development Proves Richness of Ore Bodies at Depth.

A rich strike in an old mining dis-trict in Arizona was reported yester-day from Empire Flats on the Arizona ide of the Colorado River about fifty niles below Needles. James H. Watson, who is interested with Gen. E. Boutoh and W. L. Valentine of Los Angeles, in a mining property at this place, and who is superintending the work now being prosecuted, writes to Gen. Bouton, under date of February 1, that in doing assessment work on the Omega claim, sinking an old hole deeper, a four-foot body of ore was encountered which will probably run from \$250 to \$300 in gold per ton. It is a red spar and quartz and Mr. Watson says free gold can be seen all through the rock. The shaft will be sunk deeper to prove the find.

The mines of this district have been worked by various parties for the past fifty years, but never with modern machinery. It is an old story that in the early days these claims produced something like \$800,000.

Capt. J. A. Mellen, master of the steamer Cochran, rlow plying the waters of the Colorado River has owned and operated boats on that river for over thirty years and during that time he carried many thousands of tons of ore from Empire to the Guif of California, where it was loaded on schooners and shipped to San Francisco. In threse days the freight rate was \$40 per ton, while the general average value of the ore was \$70. After deducting treatment charges, the profit was small.

perienced a most tempestuous voyage across the Atlantic, but all on board are reported well.

Boon after the departure from Cherbourg the vessel ran into a heavy southeaster. This soon shifted to the west and raised a head-sea, through which the steamship plunged heavily.

Throughout Thursday and Friday the

gale continued, with now and then a hall squall rapping hard on deck. On Friday night the barometer portended some still worse weather, and by 2 o'clock that morning a seventy-mile-an-hour gale was shricking overhead. Struggling against it at reduced speed the ship made only 248 knots.

The gale broke on Saturday noon, but left behind a gigantic swell. It was a wild scene, but so deep were the plunges that most of the passengers were content to remain in their staterooms.

gers were content to remain in their staterooms. It was, however, a brief respite which the weather gave and Sunday found the Kaiser struggling with another furious gale. This finally blew itself out and then came another which, toward midnight, developed into a cyclone. A port ventilator went with a crash, the stout iron cylinder being literally twisted from its fastenings and hurled to the deck with a crash. The tops of five other ventilators were snapped off, some salling overboard, others bounding and crashing about the decks.

The bow of the vessel was swung straight into the wind and there she lay for three hours, great seas breaking over her bow and her whole length hidden in the storms of spray. Capt. Cuppers remained on the bridge constantly until the storm passed. No person was injured and no great alarm was felt among the passengers.

up for consideration, About a year ago
the office was established, the inspector making the rounds of the entire
county outside the incorporated towns,
and inspecting all plants. The principal
work was in the oil fields. A fee of
\$10 was charged for the inspection of
each boiler and this, it was claimed,
worked a great harship on many companies. A protest was sent to the board
and the fee was reduced to \$5. Still
there was objection from many quarters, and at the December meeting of

STANFORD UNIVERSITY, Feb. 4.

The women of the university have undertaken to raise a fund for the construction of a new tennis court near Roble gymnasium. The first effort in raising the fund will be an entertainment to which all the various women's organizations of the university will contribute. The programme will be a novel one. Each organization will plan an original entertainment that will be carried out independently. The date is set for March 12, and it will take place either in Assembly Hall or Roble gymnasium. Tickets to the performance will be available to women only. In answer to an appeal from the men of Encina Hall, the board of trustees has decided to keep the lights in the hall burning until midnight for one month. It has been the custom heretofore to have them turned off at 10:30 p.m. in both Encina and Roble halls. This caused great inconvenience to those who were unable to complete their work before that time and necessitated studying by candle light, as lamps were forbidden for fear of fire. The first university assembly of this semester was held yesterday in Assembly Hall. Dr. Jordan made the principal speech. Dr. Harry B. Reynolds, '96, president of the San Francisco Alumni Association, was the visiting speaker. The Glee Club contributed a song to the programme.

Strict training has been begun by the candidates for the track team, and training rules will be rigidly enforced. A preliminary field day will be held on the oval next Saturday morning.

The seniors won the championship in the inter-class baseball series Tuesday by defeating the freshmen. The score was 19 to 10.

GIVE YOUR STOMACH

Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man,

you can do is to give it a rest. Em-ploy a substitute for a short time and see if it will not more than repay you

n results.
Stuart's Dyspepsia Tablets are a willing and most efficient substitute willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same and do just the same work as the natural fluids would do, were the stomach well and sound. They, therefore, relieve the stomach, just as one workman relieves another, and permit it to rest and recuperate and regain its normal health and strength.

who is a cousin of her sister's husband. About two years ago Lima went to Texas and has kept up a correspondence with his Julia ever since.

A few days ago she received a letter from him urging her to come to him at once and be his bride.

"I did not think my people would let me go, so I just got ready in a hurry and started off without letting them know anything about it." said they young woman, "until I was gone. I did not want them to feel worried, so I wrote a letter telling them about my plans, and mailed it just before I got on the train.

"You see, I am of age and had protection against accidents and as affording greater safety to those in the county had been about they consider the inspection a great protection against accidents and as affording greater safety to those in the county had been about the coalition of certain great interests that meant much to me as well as my clients. It was not the operation of boilers who declared that they consider the inspection a great protection against accidents and as affording greater safety to those in the county had been about the coalition of certain great interests that meant much to me as well as my clients. It was not the operation of boilers who declared that they consider the inspection a great protection against accidents and as affording greater safety to those in the field in the work of days, but of months, I was working night and day almost, when at a very critical time my stomach went clear back on me. The undue mental strain brought it about and hurried up what would have happened later on.

"What I ate I had to literally force

"What I ate I had to literally force down and that was a source of misery as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office.

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever did; and as a rest or vacation was out of the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and braced up and went ahead with my work with renewed vigor, ate just as much as I ever did and carried out that undertaking to a successful Issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsomest fee I ever received as well as my reputation and last but not least my stomach."

ave grown wealthy as the city has

have grown wealthy as the city has developed.

The bride's father chose this church for the wedding, thinking it in keeping with the union of old families. Both families are prominent. Mr. Sarnier is a well-known busin-as man, while Miss Narcisse is a rarely beautiful girl, with the fire of her French ancestors in her eyes.

The wedding was extremely quiet, just the immediate families being present. Father John Cabalieria performed the ceremony and the music was unusually pretty. As the bridal couple approached the altar Lohengrin's "Wedding March" was rendered by Mrs. Quinn, and Mrs. Contelance; organ and violin, and during the ceremony Schumann's "Tranmeri" was given and a mass was sung, Gounod's "Ave Maria" by Miss Cook, soprano, Father Fahey, tenor, and Mrs. Quinn, organist and Mrs. Contelance violin. As the party passed out, Mendelssohn's "Wedding March" was played. The only attendants were two flower girls, cousins of the bride, Misses Jeannette and Marie Conant. They wore dainty frocks of white Swiss and carried baskets of white roses. The bride wore a beautiful gown of filmy crepe de chine, with a bertha of real lace and incrustations of real lace on the skirt. She carried a shower bouquet of dainty white hyacinths and made a picture fair to look upon.

A breakfast was served at the home of the bride's parents, Mr. and Mrs. Louis Sentous of No. 615 Castellar street. The table was in green and white, carnations and smilax forming the decorations.

Whist Party.

Magnolia Lodge, No. 34 D. of H., gave a most enjoyable whist party last night at Brent's Hall. The score cards were dainty hand-painted affairs, and prizes were awarded as follows: Mrs. B. Cowan, first; E. West, gentlemen's first, while Mrs. J. E. Thomas and Mr. Turner received the consolution prizes. During the evening light refreshments were served.

Philolethia Club. Mrs. Ray Arnold of No. 903 Valencia street gave an informal little card party last evening, entertaining the members of the Philolethia Club. Dur-ing the evening a dainty supper was served to the guests. The table was decorated in red and white carnations and smilar.

The guests were Mr. and Mrs. J. M. Dansiger, Mr. and Mrs. B. F. Hopkins and Dan Knolls, Ray Howard, Howard Groves, Lee Shepherd, Thomas Ouch, Herbert Hamilton, Alvin Johnson, C. P. Johnson, Clay Walker, Purcell, Cecil Fraukel, Harry Cronkhite, Charlie Pruedel, Albert Woollacott, E. S. Pomeroy and J. E. Carter.

Mr. and Mrs. Roy Pinkham have returned from their honeymoon, which they spent in Mexico, and are to live at Terminal Island. Mrs. Pinkham will be at home with her mother, Mrs. David K. Edwards, of No. 235 South Olive street, on Mondays.

Mrs. Pinkham was Miss Hazel Edwards, a beautiful and popular girl of the younger set, and her many friends will be glad to know of her return.

Magnolia Thimble Club.

The Magnolia Thimble Club met at the residence of Mrs. J. M. Harrison, No. 1620 Redwood street, on Monday. A dainty luncheon was served, after which the ladies enjoyed a musical programme. The next regular meeting will be held at the residence of Mrs. T. J. Hampton, on the 15th of February.

CLUBS. The Women's Club of Whittier, numbering about eighty members, held an interesting meeting Wednesday afternoon. The chair was taken by an interesting meeting Wednesday afternoon. The chair was taken by Mrs. Artilissa Dorland Clark, a complete mistress of parliamentary usage, who conducted a practical parliamentary drill. The club, which is only a little more than a year old, voted at its last annual meeting to devote more time to this subject, and this drill, the second, was the result. Mrs. Clark, after introductory remarks, took up the subjects of motions, amendments, committees, their powers; instructions and limitations. Fully two-thirds of the fifty members present took part. Among the subjects discussed in the drill was "Arbor Day," which the club hopes to observe after the first heavy rain; "Current Events," to which part of each meeting is given up, were in charge of Mrs. George, W. Woodruff, who was assisted by Miss Grippen, Mrs. Trueblood and Mrs. Swain. The president, Miss Hadley, reported attending the Camino Real convention, and the Building Committee reported. At the next meeting of the club, the 17th inst., the literature section, under the chairmanship of Mrs. G. Waiter Monroe, will have charge of the programme, Mrs. Charles E. Tebetts having charge of current events.

The noblest trait of the American is, according to a German observer, the strength of character which supports him in case of a reverse. "An American who finds he has been ruined," he says, "loses no time in lamentation. Half an hour later he is about looking for a new opening."

Converted Rancher Seeks to Buy Mineral Saloon.

Would Erect Block to House Union Rescue Mission.

Turned San Jose Saloon Into House of God.

Storming that stronghold of Rum, the Mineral Saloon, the best-paying grog-shop in Los Angeles, is one of the results of a chance visit by a rich rancher to the Union Rescue Mission on North Main street

warfare he would wage against the "Mineral" is of the most peaceable nature, for it is nothing less than trying to buy the valuable modicum of ground occupied by the saloon, on the corner of First and Main streets. It has a frontage of but twenty feet on Main street and about 100 feet on First street, but Mr. Martin has been unable to get a price on it, to say nothing of the valuable asset, the saloon license, for which an enormous bonus would be asked. He has, however, secured an option on the forty feet adjoining the saloon on the south, at \$2000 per front foot and may yet override all difficulties and secure the coveted saloon. Martin doesn't want to run a saloon.

If he secures the corner he will erect a fine business building, covering the entire sixty-foot frontage, and the choicest room on the ground floor will be a home for the Union Rescue Mission, now at No. 145 North Broadway. ing to buy the valuable modicum of

It all comes about through a chanc visit Martin made to the mission one night when he happened to be loltering along Main street. JOINT FAIR.

Parishioners of St. Agnes and St Thomas the Apostle Unite for the Purpose.

What promises to be one of the most notable gatherings in the history of the local Catholic Church, will be the joint fair given under the auspices of the churches of St. Agnes and St Thomas the Apostle, next week in Turnverein Hall. Rev. Father Clifford and Rev. Father Maloney, with an able corps of assistants, are working hard to make the festival a grand

On Monday evening, February 8, Bishop Conaty will deliver an address and the fair will be formally opened. On Tuesday night the programme will be in charge of the young men or the two churches. Wednesday will be the jolliest evening of festival week, Irish night, and the folks from the Emerald Isle, with characteristic songs, will delight and entertain. Thursday will be Columbus Day and the evening will be given over to the Knights of Columbus. Friday and Saturday nights will be "everybody's nights." Special booths have been prepared and are being artistically decorated, and a number of prominent young ladies will be in charge. The fair is to be given for the benefit of the churches of St. Agnes and St. Thomas the Apostle. The parish of St. Thomas the Apostle expects soon to erect a handsome new edifice in the old mission style.

Otto Grapp, Victim of Beating, Returns Dazed to Los Angeles—Mrs. Grapp Makes Statement of His Unhappy Relations With First Wife's Family.

Warrants have been issued for the arrest of the men charged with the brutal assault on Otto Grant The of-tario Wednesday evening. The offense charged is battery. Grapp, who is still in a dazed condition on account of the injuries he received, accompanied his wife to Los Angeles yesterday and they are at their tem-porary home at No. 1311 South Los Angeles street.

Grapp is unable to say who struck

said Mrs. Grapp isst night made a statement of Grapp's connection with the case.

"Mr. Grapp and his first wife came from Waseca, Minn., to Southern California over five years ago," she said. "They lived for a while at Rediands and then at San Bernardino. His wife was afflicted with quick consumption. Several members of her family, including one of her brothers and later her father, came from Waseca and lived with them for several months.

"Notwithstanding the fact that Mr. Grapp had small means and a heavy expense to bear on account of the illness of his wife, the members of her family made no offer to contribute to the support of the family, but con-

her family made no offer to contribute to the support of the family, but continued to live there for several months at the expense of Mr. Grapp.

"The father of Mr. Grapp's wife was dictatorial and quarrelsome. Once Mr. Grapp had to restrain him from doing violence. When Mr. Grapp's wife was dead her father went with the body to the old home in Minnesota. It was about four years later that Mr. Grapp and I were married. I am sure that anything that may be said of his having ill treated his first wife is a cruel falsehood.

ARE BUILDING TO TONOPAH. Railroad Connection With Owens Valley to be Completed by End

Construction of a railroad to connect the Tonopah mining camp with the outside world is to be completed by April 30. Such are the tidings brought by W. E. Cox, who has returned from a trip into Inyo county. The Tonopah road is to connect with the one running northerly from Inyo county at Rhodes's Marsh between Sodaville and Candelaria. The distance from that point to Tonopah by the route to be followed is sixty-three miles. The route leads over a comparatively level stretch and there are said to be no difficult engineering problems to overcome. The contracts have all been let. The Southern Pacific is said to be backing the promoters of the new road. a trip into Inyo county. The Tonopah

"There is feed in Inyo county sufficient for what live stock is now in the county, but not enough to warrant bringing much more stock in," said Mr. Cox yesterday. "The sheep men have bought about all of the visible supply of hay. For those who start at once there is a chance to raise a large acreage of oats and wheat for hay. Work on the Tonopah Railroad has reduced the supply of horses in Owens Valley so that prices of good draught teams run rather higher than in Los Angeles."

WOMEN JOIN THE ALLIANCE

Result of Restaurant Strike Ordered by Union.

Totem Card no Longer. Hangs Upon Wall.

Organized Plasterers Hand Out a Package.

The latest accessions to the Citi zens' Alliance are two independent women of the local business world who, while in years past have heart ily endorsed union principles, prefer in future to conduct their business without the assistance of officious walking delegates.

Mrs. N. Clarke and her daughter. Mrs. B. Blades, proprietors of the Rival restaurant at 119-121 West Sec ond street. Back of their application for membership in the new organiza tion is an amusing story of a "great" strike, ordered Wednesday and a "call-out" of employes by a big burly delegate, commissioned to make war upon women. At an hour when the restaurant was

At an hour when the restaurant was crowded, the union emissary walked in, captured the "totem emblem" on the wall and defiantly asked what the "helpless" women would do without their "card." Just what they did do has somewhat floored the labor agitators. They only smiled sweetly, busied themselves in serving their patrons and later made application for membership in the Citizens' Alliance. nembership in the Citizens' Alliance Of the twenty-six people employed in the restaurant, but four—waitresse -walked out. Yesterday there were ten applicants for the positions, and the trade of the restaurant has in-

creased two-fold. Another amusing feature of the "strike," is the success attending the efforts of pickets stationed at Main and Spring street corners, near the restaurant. One man who was approached listened attentively to the picket's tale of woe, thanked him cordially and said, "I am very glad you told me of the helnous crime these Grapp is unable to say who struck him, but the circumstances point to Harry and Edgar Brown, brothers of Grapp's first wife, and the Sheriff is after them. Mrs. Grapp believes that the enmity of those brothers has been aroused by faise reports conveyed to them concerning Grapp's treatment of his first wife. Speaking for her husband Mrs. Grapp last night made a statement of Grapp's connection with the case.

"Mr. Grapp and his first wife came from Waseca, Minn., to Southern California over five years ago," she said.

The unions now, with amusing seriousness, suggest that all non-union men be discharged and union men be given their jobs. The promise ac-companies the suggestion that in the event of such an arrangement, the union men will work for \$5 per day. This tender, the laborites claim, is made in the interests of the general public.

But the balt is not tempting to the

"TOUTS" TAKE FULL COUNT.

LIVELY MIX-UP.

In Absence of Referee They Disregard Foul Rules, Abuse Street Car Conductors, and Are Sent to the Sand for the Limit.

One of the fastest mix-ups ever wit nessed outside a prize ring in Los Angeles took place at the corner of Fourth and Main streets yesterday at 12:45 o'clock p.m. Conductor Armstrong of a Main-street car bound for Ascot Park endeavored to fulfill his orders Park endeavored to fulfil his orders by objecting to the solicitations of two touts who were attempting to sell printed tips on the races. One of them spat in his face, and called him vile names, whereupon the conductor attempted to put him off the car. The result was a free-for-all fight, with a

surging mob as onlookers and nobody to referee.

"We have been pestered to death by these touts," said General Superintend-ent John J. Akin last night, "and our conductors have written instructions to throw them off the cars unless they pay their fares. They have been in the habit for some time of getting on the cars and riding two or three blocks without paying, and at the same time without paying, and at the same time cry out and sell their tips on the after-noon races. They block the steps of the rear end of the cars, block the aisles inside and have caused us no end of trouble. Last week I sent one of them a letter stating the case plainly and telling them we would not tolerate the nuisance any longer. I then issued the instructions to the conductors."

Although the two touts were hattered Although the two touts were battered

until their own mothers would not have recognized them, they were shrewd enough to keep their identity unknown. "If we can find out who they are, ar-"If we can and out who they rests will surely follow," said Mr. Akin.

Upon attempting to put the man who spat upon him off the car, the conductor was dragged off by the tout with the assistance of his pal, and was thrown upon the ground and kicked. A motorman, who was off duty and on the way to lunch, rushed to the rescue, and pulling one of the men off, finished him in short order, leaving him stunned and bleeding in the gutter.

The conductor, meanwhile, had turned on his man and left him in as gorry condition.

Charge of Larceny. Harry Stewart, who was recently released from the City Jail, where he
had served a long term for petty larceny, was arrested yesterday by Detectives Benedict and Shearon on a
warrant charging him with another
case of petty larceny and alleging also
a prior conviction.

Stewart was formerly employed at
Hotel Fremont, Fourth and Olive
streets, and there he robbed several
rooms, securing among other things a
diamond pin valued at more than 310s,
the property of D. W. Kirkland. For
some reason the theft of this diamond
could not be traced to him, and he was
prosecuted for the other thefts and
convicted.

Tuesday night he entered a room at
No. 135 South Olive street and stole 35
from a purse. He was seen to leave
the place by the landlady, who did not
know that a theft had been committed.

Benedict Wants Jury Trial.

Charles Benedict pleaded not guilty to the charge of conducting an opium joint, and demanded a jury trial, when arraigned in the Police Court yesterday. The police say Benedict has been conducting a notorious resort for dope fiends. Half a dozen visitors were arrested when the place was raided several nights ago, but no complaints were filed against them. Benedict's trial has been set for February 26.

Lee Arraigned for Murden

Philip Lee, the slayer of John B. Kearney, was arraigned before Justice Austin yesterday, on the charge of murder, and was committed to the City Jali pending his preliminary examination, which was set for February 13 at 10 o'clock a.m.

Antiquated Baby Abalones.

Louis Barlow, a shell dealer, was fined \$20 yesterday by Justice Austin, for having baby abalone shells in his possession. On the showing that he came in possession of the shells sev-eral years ago, without intent of law-breaking, the fine was remitted.

Brown's Dangerous Sport.

Roy Brown was fined \$5 for dis-charging firearms in the city limits. He was shooting cottontalls with a small rifle in the south part of the city, and neighbors who had children' playing in the vicinity complained against him.

"The general sputation of those places is well known, and it is ridiculous to suppose that a cigar box or a handkerhief can defeat the ends of the law. The crusade against the cribs will not ag. It might give the police some rouble to prove the true character of the place on one of the downtown strests where goods were really offered and sold, but to start such a department store in the crib district under unch alight disguise is sheer foolish-

TO CANCEL BONDS.

The first official step looking to the sancellation of the storm-drain bonds was taken yesterday at a special session of the Council, when Farish submitted a resolution calling for the re-

whose.

President Bowen, who is now acting mayor and Todd were absent. Summerland was chosen to preside.

Parish made no argument in introducing the resolution further than was contained in the statement of the situation, which was as follows:

Whereas, the bonds authorised to be issued at the special election of October B. 1902, for the purpose of constructing a system of storm sewers have not been sold, and while such nawers may be regarded as desirable improvements, yet, in consequence of the extraordinary growth of the city, other improvements are more imperatively needed, and should be provided for immediately, and this can be done only by the issuance of bends, and, furthermore, the bonded indebtedness of the city has reached the point where any further increase should be avoided except for the most urgent purposes, etc.

BRICK CONTRACT.

Heartfelt sighs of relief came from seven Councilmen at I o'clock last sight, when the contract for the brief, when the warded to "C. Forrester." Representatives of all the old brick dompanies were in the lobby when the ward was made. The vote was unanimous, attorney Walter Bacon made what he termed an "expi-"ug protest" spainst the acceptance of the contract, and predicted dire consequences to the direction of the contract provision, and the reference made to the starm drains. He said the words "except vitrified brick" would cost the city \$30,000.

PURCHASING SYSTEM.

PURCHASING SYSTEM.

The somewhat cumbersome system of purchasing supplies in force in the county was adopted by the Council yesterday for the city with some slight modification. The Municipal Accountant was instructed to install the new system and the clerk of the Council committees will be charged with checking orders for supplies.

A recommendation in favor of this system was made by # special committee composed of Farish, Nofsiger and McAleer. It is urged that it provides a better check on purchases than the extremely loose system now in vogue at the City Hall. The committee found that a purchasing agent could not act under the present charter.

SIGNAL SYSTEM.

FOSTER'S SCHEME DISCUSSED.

C. D. Willard of the Municipal League appeared before the Finance Committee yesterday to recommend the installation of the Foster system of police mignals. Special Officer Foster has used his system to advantage in the Bonnie Brae district and is trying to obtain patents on his device. He offers the system to the city without the payment of any royalties to which he might have claim.

It is estimated that 100 boxes could be installed and maintained at an expense of not more than \$6000 a year. The boxes are used in conjunction with red light on the tops of telephone poles. The police can be called immediately to the boxes by turning on these lights at the Central Station.

The Home Telephone Company has offered the use of its poles for the system.

A. W. Clute of the Gamewell Fire

offered the use of its poles for the system.

A. W. Clute of the Gamewell Fire Alarm system is in Los Angeles, and it is probable that he will submit some kind of a counter proposition to the city. It is said that Clute will have the backing of the Sunset Telephone Company, thus inaugurating a strife between the two companies for the signal system.

City Electrician Manahan appeared before the committee yesterday, but said he could not well advise the Councilmen until a definite plan was submitted to him. A practical test of the Foster system will be made in the near future.

Petterson, who succeeded Day on the board, made the motion which carried unanimously. Dr. Day stood highest on the Civil Service Commission's list of eligibies. The examination papers were marked by professors of the State University and the test of proficiency was said to be very rigid. The position pays \$150 a month.

Adverse comment was made by members of the board because of the rule of the Civil Service Commission to certify only the name of the candidate highest on the list of eligibles. While desiring the appointment of Dr. Day as City Chercist, Dr. Johnson said he thought some latitude should be allowed the commissions in the selection of men. He moved that the Civil Service Commissions he requested in future to certify more than one prame from the list of eligibles.

The civil-service rules provide that the board may excitly to the appointing board or officer any number of eligibles not exceeding three.

"Here in America," the judge said, "people are too prone to rush into the divorce courts. The courts cannot countenance such separations. There is a higher duty toward these little children than your Mart feelings. I know these things will be hard to forget and karder to forgive, but you must each do your part. This is an honest working man and a good woman. This court will not permit them to break up this little family if it can possibly prevent it."

One of the lawyers attempted to interfere, and got a hot shot.

He at first said that he would not advise his client, the woman, to try to go back to the man who had freated her so, and endure such a life again. "But you assume that the bickering must continue," said the court. "These people are not children. They have had a good hard lesson."

THE INFERIOR COURTS,

MON-UNION JURY'S JUST VERDICT.

UNION COOK FOUND GUILTY OF BATTERING EMPLOYER.

Cook and Waiters' Union's Attorney Made Vain Attempt to Shield the Culprit from Punishment for His Crime-Court Was

Wallace W. Wideman, Esq., attorwallace W. Wideman, Esq., attorney for the Cooks and Waiters' Union, put up a hard battle yesterday to save one of his union cooks from conviction on a charge of battery. Wideman is a young lawyer, recently graduated from the newspaper profession and battling hard for his legal spurs. He put up a game battle yesterday and lost.

The trouble was, Wideman's client was guilty as charged, and all the elo-\$1 down \$1 per week quence that the rising young barrister could muster couldn't convince a fury of twelve good men and true that black was white.

The defendant in the case was J. H

Simons, a cook formerly in the employ of W. C. Elderton, proprietor of the Boston Dairy Lunch, at No. 103 South Broadway. Elderton found Simons's services unsatisfactory and mone's services unsatisfactory and discharged him. Simons deinanded a settlement and Elderton gave him \$2.28, as the balance of wages due him. Simons demanded one dollar more, and swatted Elderton because he would not pay him the extra amount claimed. Elderton defended himself against assault, and in the melse both combatants were sorely bruised.

Elderton complained against Simons for battery and the latter demanded a jury trial. Lawyer Wideman defended

Alfred Benjamin's him and wanted nobody but good and true union men on the jury. He couldn't get any jurors of the union brand, see the case had to go to trial with just twelve plain American citizens in the jury box. It didn't make any difference to them whether Simons belonged to a labor union or not. The evidence clearly showed that Simons was the aggressor in the fight and all his unionism couldn't save him from the consequences.

Attorney Trusten P. Dyer, Mr. Elderton's counsel, assisted Deputy District Attorney Frederickson to prosecute the case. It was all downhill work for them, as they had the law and the evidence on their side. Mr. Wideman had little evidence, but much eloquence at his command, and he proceeded to speliblind the jury into a hypnotic state that would assure the acquittal of his cilent. But the non-union jury refused to be hypnotized by a union lawyer, and a verdiet of guilty was speedly returned.

Then Mr. Wideman made a spiel for lenlency and Justice Austin, who is always prope to temper justice with Black Suits..

SHARES AND MONEY.

(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, Feb. 4.—Stock market operations today were under the sume constraint as for several days past, and the movement of prices again became wavering and unertain after yesterday's decided downward movement. The sharp break in the morning, while prices of cotton were slumping, and the subsequent raily with cotton, pointed to a sympathy between the two movements which leaves little doubt that the collapse in cotton is viewed with more or less apprehension in Wall street. GRAIN AND PRESS—P.M.]

CHICAGO, Feb. 4.—All cereals made new high-record marks today. Active buying on the apparent certainty of war was the cause. Owing to the critical state of affairs in the Far East, wheat traders were keyed up to a high pitch at the opening. Shorts were so energetic in their efforts to get under cover and the pit was so bare of offerings that before the initial demand was satisfied, the price of May was bid up ½ to % to 1½ to 1% above last night's close, sales being made at 94½ 50%. July was up ½ to 1 at \$545.5%. Whim May reached \$55, whim a comparative of the made of the price of May was up & to 1 at \$545.5%. Whim May reached \$55, whim a considerable short selling. There was also some selling in July, which was credited to the leading in July, which was credited to the leading ing operator. The built trader, however, did not open buying at any time during the day. As the seasion advanced, the market became quieter. Prices eased off under a load of 1% from the top. May sold off to 54, with little demand at the decline. The market remained quiet and comparatively steady until near the close, when another sharp raily occumination houses became active buyer, and shorts again started on a wild hush to cover.

SANTA ANA MAN SECURES VAST BEDS OF PITCHBLENDE.

M. B. Maynard Found Guilty of Forgery—Body of an Unknown Man Near Buena Park—Judgment by Default Against Ben Nimmo.

BANTA ANA, Feb. 4.- John Mitche f this city has specimens of a pitch-lende which he believes contains the much-sought radium. Mr. Mitchell is one of the oldest and most experienced prospectors of this section, and his be-lief that he has an ore containing the valuable radium is based on a thorough study from published reports of the conditions under which the substance is found. Early in the eighties, when is found. Early in the eighties, when Mr. Mitchell was in charge of the Silver Reef mining claims for the Christy Silver Mining and Milling Co. of San Francisco, a party of prospectors working under his supervision discovered large deposits in the mountains mear the boundary between Utah and Arisona, of a pitchblende ore, which he at the time pronounced worthless, but which, in the light of the later discovery of radium, may be worth a fortune. Samples of the ore which he has kept since its discovery will be sent to the University of California to be tested. It is said that the beds of pitchblende are very extensive.

GUILTY OF FORGERY. GUILTY OF FORGERY.

M. B. Maynard was found guilty this afternoon in the Superior Court of forgery for signing the name of A. W. Porter to time checks of the Anahelm Union Water Company and then passing them on Fulierton merchants. Maynard went on the stand this morning and told his story, conflicting in every point with that of the witnesses for the prosecution. The case was argued briefly by Dist.-Atty. Head for the people and by Clyde Bishop for the defendant, and then submitted to the jury, which found him guilty on the second ballot, after being out about ten minutes. Sentence will be pronounced Saturday morning at 10 o'clock.

FREIGHT RUNS REDUCED.

KERN CITY, Feb. 4.—An order that went into effect February 1 is to the effect that freight conductors running between Kern and Mojave will have 2500 miles to run instead of 2750 to constitute a month's work, as heretofore. There has been complaint in the past as to the heavy mileage required on this run, which covers the crossing of the Tehachepi Mountains. D. P. Kellogs, formerly foreman of the Southern Pacific Railroad shops at Oakland, assumed the duties of master mechanic at the company's shops in this city. Mr. Kellogg succeeds R. E. French, who has occupied the position for the past ten years. Mr. French left for Oakland today, where he will commence his duties as assistant master mechanic in the Southern Pacific is after cattle shippers, who are alleged to have been shipping hides and pelts with livestock consignments, using the same as hedding in the cars. It has been runnored that in this way a considerable amount of hides and pelts have been shipped at times. Strict orders have been given conductors and trainmen to watch for such consignments and report any case to the proper officials. If this practice was allowed the company would lose quite a revenue.

FREIGHT RUNS REDUCED.

KERN CITY, Feb. 4.—An order that went into effect February 1 is to the effect that freight conductors running between Kern and Mojave will have 2500 miles to run instead of 2750 to constitute a month's work, as heretofore. There has been complaint in the past as to the heavy mileage required on this run, which covers the crossing of the Tehachepi Mountains. D. P. Kellogs, formerly foreman of the Southern Pacific Railroad shops at Oakland, assumed the dutles of master mechanic at the company's shops in this city. Mr. Kellogs succeeds R. E. French, who has occupied the position for the past ten years.

Mr. French left for Oakland today, where he will commence his duties as assistant master mechanic in the Southern Pacific is after cattle shippers, who are alleged to have been shipping hides and pelts with livestock consignments, using the same as hedding in the cars. in splendid running order inside of thirty days.

The refinery has been closed down for nearly three years and though idle all of this time the machinery is in very fair condition. There are five stills with a capacity of 1000 barrels per day and the plant is one of the best-equipped in the country. With the failure of the asphalt trust the property was closed down and later was purchased by the Barber Company. Mr. Lowery states that asphalt will be manufactured from oil of the Kern county fields to be used exclusively in county fields to be used exclusively in their paving contracts.

discussing the question of municipal ownership. It also took the form of an adjourned meeting of the board, and President Dudley presided. A letter was read by the cierk from the Artesian company to the effect that the company had ordered a sixteen-inch castinon main for Nevada avenue, and would guarantee the city a sufficient water supply. This communication was signed by Frederick H. Rindge, the president, George I. Cochrane, vice-president, George I. Cochrane, vice-president, and R. C. Gillis, secretary. Ex-City Attorney Tanner was the first to address the meeting. He opposed municipal ownership and spoke in favor of deferring action until it was found that the Artesian company failed to live up to its promises.

C. L. Powell and W. I. Hull favored having the board appoint a conumission to investigate municipal ownership. Roy Jones and Robert F. Jones opposed the city ownership, as did also J. H. Clark. The last hamed presented the resolution given above, which was adopted by a rising vote. The meeting was largely attended, and was composed of representative citizens.

LOS ANGELES

Honestly Made Mattresses

Of all false economies, sleeping on a poor mattress is the worst. Without perfect rest, how's a person going to be in good condition for a day's work? Considered either from the viewpoint of physical comfort or final cost, it pays to buy the very best.

Hair Mattresses \$10 to \$30

Gray, white and black hair in every worthy grade. \$30 for our very finest—a 30-pound mattress of the very choicest selected white hair, in the best tickings to be had, and hand-made throughout by expert workmen. \$20 for white hair mattresses sold in most steres for the "very best."

Silk Floss Mattresses Finest silk floss produced put up in the best tickings and made with imperial edges for \$15. Same grade of floss, only not so much in the mattress and not so expensively made up, \$9.00.

Cotton Mattresses

Mattresses

Laminated cotton mattresses — really the kind you see advertised for \$15, are here for \$10. Then we have pure white cotton mattresses at lower

Paim fiber mattresses with cotton on both sides. For cheap mattresses, here's wood fiber with cotton top, in full double bed size as low as \$3.00.

A Word About February Trade Sales.

As we have told you for the past few days that our New York buying organization with the assistance of those of our local buyers who are now in the Eastern markets are purchasing numerous lines of high grade merchandise from the manufacturers at the end of their wholesale season and are getting such price concessions that we can place before the Los Angeles public at from one fourth to one half less than the regular value. We accept nothing but the finest merchandise and for Friday's selling we encorporate our usual Friday surprises with these Trade Sales and we have no hesitancy in saying that the combined list
